

MIDWAY INDUSTRIAL SYSTEMS

A Division of Midway Industrial Supply

ASSEMBLY & SPECIALTY EQUIPMENT CAPABILITIES

For over 50 years, Midway Industrial Supply has provided expertise, knowledge and top quality equipment to our customers. We keep our customers up and running no matter what the problem or the hour of the day. When training, troubleshooting or retraining is called for, we make sure our customers receive the knowledge and information they need. We demonstrate or test many of the products we sell to make sure they fit our customer's processes. Many of our customers have become our friends and we do our best never to lose sight of the importance of each of our customers - from small local businesses to large, multi-national corporations. *We appreciate your business!*

APPLICATION EXPERTISE & EQUIPMENT

Sealant and Adhesive application equipment

- Complete engineered systems for many sealants & adhesives; at high or low viscosities.
- Adhesive spray or extrusion packages or systems, from many size material containers.

Hot Melt adhesive application equipment

- Tank units with seven hopper sizes and melt rates. With piston or gear pumps.
- Bulk unloaders for 5-gallon and 55-gallon containers, high or low pressure depending on viscosity.
- Industrial glue guns ranging from 80 to 400 watts for high volume industrial usage.

Sanitary pumping equipment

- Graco piston pumps and packages for transfer of medium to high viscosity food ingredients.
- Graco sanitary diaphragm pumps for transfer of low viscosity food ingredients.

Diaphragm pumps and metered systems

- Complete selection of diaphragm pumps, including a full range of sizes and materials.

Metering equipment and systems (lubricants, paints, etc.)

- Full range of flow meters and regulators with custom-configured control panels and a variety of pumping and dispense options depending on viscosity and process requirements.

Fiberglass & Gelcoat spray equipment

- Complete selection of Gelcoat and spray-up machines as well as large parts inventory. Also supply rollers, cheese cloth, booth paper, booth filters and other booth accessories.

Solvent flushing, transfer and distillation equipment

- Low pressure transfer pumps up to 60 gpm.
- Medium pressure pumps for best flushing capability.
- Solvent distillation stills with process rates ranging from 3 gallons per shift up to 110-gallons per shift.

Supplies for spray booths and spraying operations

- Complete selection of booth supplies including filter media, floor paper, booth coater & more.
- Other supplies include masking paper, tank & pail liners, strainers, respirators and more.
