

MIDWAY INDUSTRIAL SYSTEMS

A Division of Midway Industrial Supply

SPRAY FINISHING CAPABILITIES

For over 50 years, Midway has provided expertise, knowledge and top quality equipment to our customers. We keep our customers up and running no matter what the problem or the hour of the day. When training, troubleshooting or retraining is called for, we make sure our customers receive the knowledge and information they need. We demonstrate or test many of the products we sell to make sure they fit our customer's processes. Many of our customers have become our friends and we do our best never to lose sight of the importance of each of our customers - from small local businesses to large, multi-national corporations. *We appreciate your business!*

GLOBAL FINISHING SOLUTIONS
THE WORLD LEADERS IN PAINT BOOTH TECHNOLOGY

APPLICATION EXPERTISE & EQUIPMENT

Complete integrated finishing systems and components

- Including conveyors, washers, ovens, spray booths, finishing application equipment, pumps, tubing systems and other components. Installation, start-up and training normally provided.

Spray equipment, spray booths and air make-up units

- Including spray guns, hose, fittings, pressure tanks, pumps, agitators and heaters. We also provide small automatic spray machines from custom-designed stationary applications to portable moulding machines. Equipment for all types of paints and coatings.
- Spray booths of all sizes and types, custom and standard sizes.

Electrostatic spray equipment

- Including manual and automatic guns, automatic rotary atomizers and systems.
- Equipment for spraying water borne materials; manual or automatic.

Plural component paint application equipment

- Electronic and mechanical proportioners for spray or batch operations.
- Metering and monitoring systems for mechanical proportioners.

Powder spray equipment

- Nordson powder spray equipment and systems (demonstrations available); box feed or hopper feed. In addition, we provide powder spray booths, automatic systems, washers and ovens.

Solvent flushing, transfer and distillation equipment

- Low pressure transfer pumps up to 60 gpm.
- Medium pressure pumps for best flushing capability.
- Solvent reclaim units with process rates ranging from 3 gal per shift up to 110 gal per shift.

Supplies for spray booths

- Complete selection of booth supplies including filter media, floor paper, booth coater & more.
- Other supplies include masking paper, tank & pail liners, strainers, respirators and more.
