A Division of Midway Industrial Supply

PLURAL COMPONENT PAINT PROPORTIONING EQUIPMENT

For over 30 years, *Midway Industrial Supply* has teamed with Graco to provide our customers with the latest in proportioning equipment for production speed application of epoxies, urethanes and other plural component coatings. We are experts in all of Graco's plural component proportioners, including the electronics and older mechanical Hydra-Cats. We provide electronic metering and monitoring systems for most mechanical proportioners. Stainless catalyst supply tanks with level sensing indicators and alarms are often provided for larger systems.

ProMix 2KS

- Manual or robotic applications
- Up to 30 colors and 4 catalysts
- Numerous data collection options
- Optional solvent meter
- Electronic ratio monitors, automatic off-ratio shut-off

ProMix Easy

- Simplified proportioners to fit any budget
- Simple set up, operation and maintenance
- High or low pressure
- One color operation

Xtreme Mix

- Heavy-duty electronic proportioner for high solids applications
- One color operation
- High pressure (up to 7,250 psi)
- Manual application
- Electronic ratio monitors, automatic off-ratio shut-off
