

MIDWAY INDUSTRIAL SYSTEMS

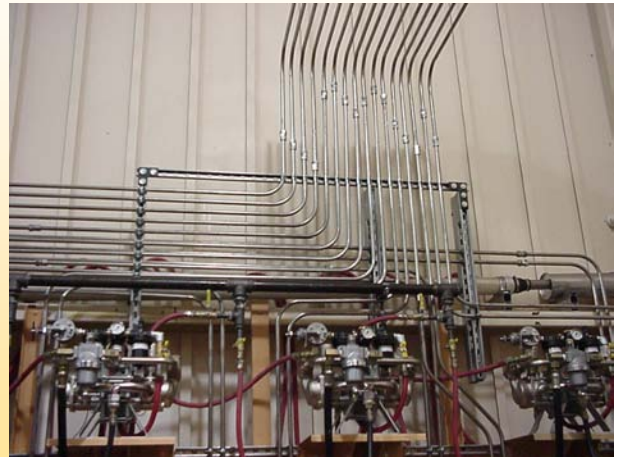

A Division of Midway Industrial Supply

SPRAY FINISHING SYSTEMS

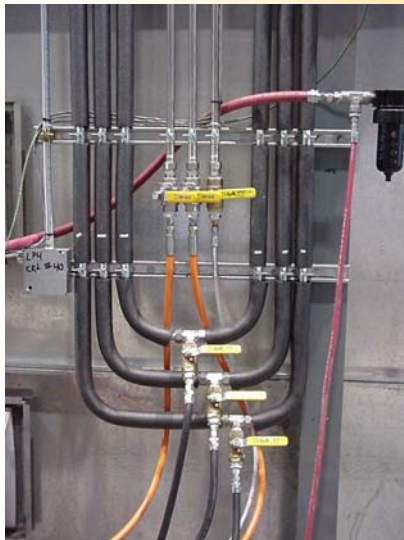

Midway Industrial Supply has extensive experience in many different types and sizes of finishing systems. A large system may include conveyors, ovens, washers, blast booths, spray booths, tubing, pumping and spray equipment. We provide everything from initial, detailed consultations to installation to start-up and training. Experienced Sales Engineers provide ongoing support and troubleshooting. Every time we provide a finishing system, our goal is the same: *Earn your business for years to come.*

Paint kitchen installation in indoor moveable hazardous storage building

Low pressure circulating system

Precision tubing by Midway technicians

Downdraft booths and flash tunnel
