

MIDWAY INDUSTRIAL SUPPLY *and* MIDWAY INDUSTRIAL SYSTEMS

Midway Industrial Supply

was founded in 1955, and since then has grown to become one of the largest spray finishing distributors in North America. We specialize in supplying paint and powder finishing equipment and systems to customers in the upper Midwest. We also supply pumping and application solutions for adhesives, sealants, inks, food ingredients and many other fluids.

We represent industry leaders in our market area: Graco, ITW Binks-DeVilbiss, Nordson, Nordson Powder and Global Finishing Solutions (GFS, formerly JBI Spray Booths).

We also carry ITW Dynatec hot melt equipment, Finish Thompson solvent stills, Magnum-Venus and Glas-Craft fiberglass equipment, and many other product lines.

Midway has an extensive inventory of spare parts, spray guns, booth filters and other accessories and supplies. We routinely ship an order the same day we receive it. Our Customer Service people are friendly experts - they will help you with application questions, part number questions, and all your ordering needs.

Our outside sales staff includes ten Sales Engineers with an average tenure of over eleven years. We are interested in solving problems for your company by assisting you to reduce operating costs and improve your production processes.
